I Have... Who Has...? Language Arts Game

The entire class can have fun while practicing skills in sight words. After handing out all of the cards, the student whose card reads, "I have the first card! Who has...?" begins. The student whose card has the answer to that question responds and then asks a different question. This continues until the person with the last card gives the final answer and then reads, "This is the end of the game!" Each box provides 4 sets of cards for 4 different games.

Learning Wrap-ups offer a fun and unique way to help students memorize their math facts. Students wrap the string from the problem on the left to the answer on the right, then turn the Wrap-up over to see if they got it right. Use a stop watch to measure improvement and to see how fast they can really go. Each set contains 10 self-correcting boards and covers all the facts for that operation.

Chill Zone

Chill Zone

As Part Of SEL, educators recognize the importance of chill zones within classrooms: quiet spaces available to students who need private moments to relax or a "time in" to calm down, without excluding them from the classroom. They're a key element in creating more inclusive environments that meet the needs of all students.

C-line® Filler Paper

Instantly create writing space in binders and folders, by inserting the three-hole punched filler paper. Perfect for students and professionals, the durable pages can be used to record everything from class notes to documenting weekly to-do lists. Bright white paper is lined with margin space to allow for neat writing. Pages measure 8 x 10-1/2 inches in size so they can easily be inserted in all letter-size folders, files and binders. Keep track of notes by adding the pages into a standard 3-ring binder since the pages come hole punched down the left side of the page. Bright white paper has blue handwriting lines with a red margin divider.

Nylon Outdoor U.S. Flags

New dyes and coloring processes make these flags color fast and fade resistant. Though continued exposure to the sun will lighten any flag, this red will never change to orange or blue to purple. Made of nylon bunting specially developed for flag use, these flags have superb wearing strength. Lock-stitched with nylon thread for extra strength, this flag has embroidered stars and stripes and is finished with strong fabric heading and brass grommets. Most popular for outdoor use. Pole and bracket are not included.

Crayola® Washable Paint

Brilliant colors wash easily from hands and most clothing. "Worry-free" paints for the classroom are an ideal substitution for tempera when teaching painting skills. The thick gel consistency and washability from skin and most clothing make paint application and clean-up easier than ever. Bright pigmented colors are non-toxic, freeze/thaw stable, do not separate, and dry to a matte finish. **Sets of 6 contain** one each of Red, Yellow, Blue, Green, Black, and White. **Set of 12 contains** the colors in the Set of 6 plus one each of Orange, Magenta, Violet, Peach, Turquoise, and Brown.

Crayola® Washable Project Paint Sets

Neon, Glitter, and Metallic effects add a vibrant, iridescent, or sparkly look to your creative masterpieces. Crayola Washable Project Paint is a non-toxic, water-based paint that's great for arts, crafts and school projects.

Liquid Washable Watercolors

Dark yet traditional hues are intermixable for endless shading options. Thicker viscosity makes for controlled dispensing, and increased surface tension results in less bleeding of colors. Will spread/wick when dripped on paper undiluted and spreads easily when brushed. Use at full strength or dilute with water for more muted color. Washable formula rinses out of most fabrics with soap and water. Non-toxic. **8 Color Set contains** one 8 oz. bottle each of Blue-Green, Red-Violet, Blue-Violet, Fuchsia, Coral, Pink, Yellow-Orange and Yellow-Green. **10 Color Set contains** one 8 oz. bottle of Red, Yellow, Blue, Green, Orange, Violet, Magenta, Turquoise, Brown and Black.

Thames & Kosmos Mega Cyborg Hand

The Mega Cyborg Hand allows students to explore hydraulics, pneumatics, and robotics by assembling their very own giant mechanical hand. Included are 200 plastic pieces and piston tubes that get filled with water to create air pressure for hydraulic movements. The best part, it fits virtually anyone, and no motors or electricity is required! If students get stuck at any point, a 40-page full-color model building guide is provided to help them along the way.

New ideas for teaching science

Earth's Resources Curriculum Module

Invite students to unlock the mysteries of Earth's natural bounty

Through hands-on activity, students investigate igneous, sedimentary, and metamorphic rocks; rock formation; and the rock cycle. They also learn about mineral formation, streak, luster, hardness, and specific gravity. They explore cleavage and fracture, fossils, chemical and mechanical weathering, continental drive, and soil structure.

Earth's Resources includes:

- Five lab investigations, each with materials for 40 students
- Student and teacher guides for each lab investigation
