## Baby bath tubs & bath seats

### Sure Comfort® Newborn to Toddler Tub -

**White** (15 in x 27 in)

Item 30919331 **\$29.97**

Newborn to Toddler Tub with Infant Sling grows with your child through three stages. The included mesh sling cradles newborns to provide them with extra comfort and support while bathing. The added security of the form-fitting netting helps make bath time less stressful for both new parents and their newborn. This 3-in-1 tub also features a deep ergonomic design that holds a growing baby better during bath time. Removing the sling gives you a baby tub with a comfortable recline and padded headrest. The specially designed bump built into the baby side of the tub will help keep that tiny bum from sliding down. Later, active toddlers can sit up comfortably

### Webber Naturals® Omega-3 Pharmaceutical Grade, 500 mg (200 softgels, BONUS! 33% More)

Item 30169455 **\$17.97**

Omega-3 fatty acids are required for support of our physical, emotional, and mental health. Fish oils are nature's best source of omega-3 fatty acids, providing "ready-made" EPA and DHA fatty acids. EPA helps lower cholesterol and has an anti-inflammatory effect on coronary arteries. DHA is important for improving mood, vision, and brain health.

Omega-3 essential fatty acids are required in our diet for support of physical, emotional, and mental health. EPA and DHA, two members of the omega-3 fatty acid family, are found abundantly in fish oil.

An overabundance in consumption of trans saturated and saturated fats coming from processed and packaged foods, and diets high in meat protein causes a nutritional imbalance, leading to a deficiency of omega-3.

Omega-3 fatty acids have been shown to support brain function and reduce levels of serum triglycerides, having a beneficial effect on cholesterol levels.
