Webber Naturals® Vitamin E, Natural Source, 400 IU

Item 30722419

Nutritional information

Ingredients:

Each softgel contains: Vitamin E (d-alpha tocopheryl acetate) 268 mg AT (400 IU)

Description

Webber Naturals Vitamin E 400 IU provides the cold-pressed, highly bioavailable form of vitamin E d-alpha tocopheryl acetate. This non-GMO formula is free of artificial colours, preservatives, and sweeteners, and offers antioxidant support against oxidative stress for the maintenance of good health. Scientists isolated vitamin E from wheat germ oil in the 1920s and called it the “antisterility” vitamin. Its name, alpha-tocopherol, is from the Greek tokos, “offspring” and phero, which means “to bear”. Vitamin E is an antioxidant, protecting cell membranes from free radical damage. Vitamin E Natural Source from Webber Naturals offers naturally sourced vitamin E (d-alpha tocopheryl acetate), a form which is almost twice as bioavailable as synthetic vitamin E. This natural form of vitamin E is extracted by cold-pressing methods that do not damage the tocopherols. Vitamin E protects cell membranes from compounds such as lead, mercury, and other heavy metals; toxic compounds such as cleaning solvents; drugs, radiation, and the body’s free-radical metabolites. Severe vitamin E deficiency is quite rare, but symptoms in adults could include nerve damage, muscle weakness, poor coordination, involuntary movement of the eyes, and breaking of red blood cells, leading to hemolytic anemia.

Webber Naturals® Biotin 10 000 Mcg Extra Strength

Item 30087936

Nutritional information

Ingredients:

Each vegetarian capsule contains: Biotin 10,000 mcg

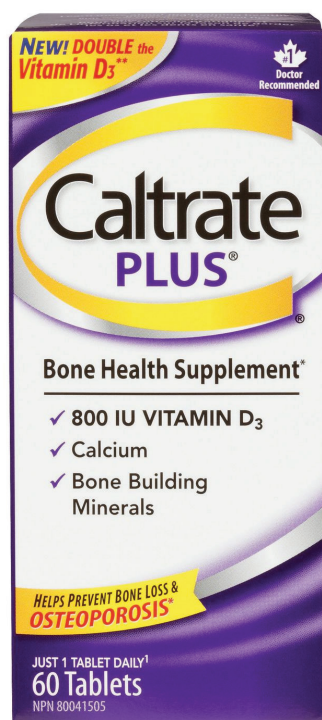

Description

Biotin is an essential B vitamin needed for the metabolism of carbohydrates, proteins, and fats to support optimal energy levels. Biotin also is a factor in the maintenance of good health. Extra Strength Biotin 10,000 mcg from Webber Naturals is a non-GMO formula that can help prevent biotin deficiency and promote healthy, beautiful hair, skin, and nails. Biotin is a water-soluble B vitamin involved in nutrient metabolism and the synthesis of proteins like keratin found in the hair, skin, and nails. Extra Strength Biotin 10,000 mcg from Webber Naturals can help strengthen fragile or brittle nails and thinning hair, and may help improve dry skin. As part of the B vitamin group, biotin is best known for supporting energy metabolism through its involvement in several enzyme pathways. Biotin acts as an essential cofactor for certain enzymes needed for maintaining optimal energy levels and synthesizing protein building blocks. Extra Strength Biotin 10,000 mcg from Webber Naturals is a convenient, one-per-day vegetarian formula that can help support energy metabolism and the health of hair, nails, and skin.

- Provides 10,000 mcg of biotin per vegetarian capsule
- Shown to strengthen brittle nails and promote healthy nails
- Promotes thicker and stronger hair
- Supports healthy skin
- An essential nutrient for the normal metabolism of carbohydrates, proteins, and fats

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Webber Naturals®, Vitamin C Chewable, Tropical Breeze, 500 mg

Item 30759628

Nutritional information

Ingredients:

Each chewable tablet contains: Vitamin C (ascorbic acid, sodium ascorbate) 500 mg

Description

Chewable Vitamin C 500 mg from Webber Naturals provides daily support for immune function, wound healing, connective tissue formation, and healthy bones, gums, and teeth. Vitamin C is a water-soluble nutrient that is not stored in the body. It must be obtained daily through the diet and/or supplemental sources to support numerous aspects of human health. Vitamin C is the body's primary antioxidant, and is also able to help recycle depleted vitamin E for enhanced antioxidant protection. Vitamin C protects LDL cholesterol from oxidation and facilitates the absorption of nonheme iron to support red blood cell formation. Vitamin C may also help shorten the duration of cold symptoms.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.

Webber Naturals® Biotin 2500 Mcg

Item 30777857

Nutritional information

Ingredients:

Each vegetarian capsule contains: Biotin 2500 mcg

Description

Biotin is an essential B vitamin needed for the metabolism of carbohydrates, proteins, and fats to support optimal energy levels. Biotin also is a factor in the maintenance of good health. Biotin 2500 mcg from webber naturals is a one-a-day, non-GMO formula that promotes healthy hair, skin, and nails. Biotin is an essential co-factor in the metabolism of carbohydrates, proteins, and fats, making it a key part of maintaining optimal energy levels. It is also vital for the synthesis of amino acids, the building blocks of proteins such as keratin which is found in the hair, skin, and nails. Biotin 2500 mcg can help strengthen fragile or brittle nails, thinning hair, and may help improve dry skin. As part of the B vitamin group, biotin is best known for supporting energy metabolism through its involvement in a number of enzyme pathways. Biotin acts as an essential cofactor for certain enzymes needed for the synthesis of fatty acids, the breakdown of branched-chain amino acids for energy, and to synthesize the body's major energy source, glucose, from food. Biotin 2500 mcg from Webber Naturals is a convenient one-a-day vegetarian formula that can help support energy metabolism and the health of hair, nails, and skin.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.

Webber Naturals®, Lutein with Zeaxanthin, 40 mg

Item 30759621

Nutritional information

Ingredients:

Each softgel contains: Lutein (Tagetes erecta) (marigold flower) 40 mg Zeaxanthin (Tagetes erecta) (marigold flower) 7 mg

Description

Lutein with Zeaxanthin Maximum Strength from webber naturals contains natural, purified lutein for superior antioxidant protection. Taking a quality lutein supplement daily helps prevent age-related macular degeneration, cataracts, glaucoma, and diabetic retinopathy. It can also improve visual acuity, glare recovery, and contrast sensitivity. Lutein with Zeaxanthin Maximum Strength from Webber Naturals supports healthy eyes and vision in people with conditions associated with sunlight damage such as age-related macular degeneration (AMD), cataracts, and other eye conditions. Lutein and zeaxanthin are major carotenoid pigments that are highly concentrated within the macula and retina of the eyes. They improve macular pigment optical density and provide antioxidant protection for the maintenance of eye health. This is critical because the retina is especially vulnerable to oxidative stress due to its high exposure to light and high oxygen demands. This convenient one-a-day formula contains 40 mg of lutein plus 7 mg of zeaxanthin in each softgel. Lutein is derived naturally from marigold flowers and purified for superior antioxidant protection. It contains no GMOs or gluten, and is free of artificial colours, preservatives, and sweeteners. Taking a quality lutein supplement daily helps to reduce the risk of developing cataracts. Lutein with Zeaxanthin Maximum Strength is an ideal choice for people with a limited daily intake of lutein and those who are concerned about the effects of the sun's UV rays on their eyes.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.

Webber Naturals® Melatonin Maximum Strength Quick Dissolve, 10 mg

Item 30723614

Nutritional information

Ingredients:

Each Tablet Contains: Melatonin 10 mg

Description

Melatonin, Maximum Strength, Quick Dissolve, 10 mg from Webber Naturals is the maximum dosage available in one convenient sublingual tablet. When sleep patterns are disturbed, falling and staying asleep can be difficult. Melatonin improves sleep quality, regulating circadian rhythms as sleep patterns change with age, or when offset by sleep disorders, jet lag, and irregular schedules. Melatonin is a hormone secreted by the pineal gland in the brain. It helps regulate other hormones and maintains the body's circadian rhythm, an internal 24-hour time-keeping system that affects how and when we fall asleep and wake up. Levels of melatonin are low during the day and rise during the normal sleeping period at night. The amount of melatonin released at night varies among individuals and appears to diminish with age. When your sleep patterns are disturbed, by travel or shift work for example, supplemental melatonin can help reset your body's "clock" and improve length of sleep and sleep quality. Melatonin from Webber Naturals is available in a 10 mg sublingual tablet that is absorbed under the tongue to enter the bloodstream quickly. Seniors, shift workers, and those who travel to other time zones, are likely to benefit from supplemental use of melatonin.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.

Webber Naturals® Melatonin Extra Strength Quick Dissolve, 5 mg

Item 30489136

Nutritional information

Ingredients:

Each tablet contains: Melatonin (non-animal source) 5 mg

Description

Melatonin from Webber Naturals is available in extra strength 5 mg sublingual tablets that are absorbed under the tongue for quick entry into the bloodstream. It is natural, non-addictive and very safe. Ideal for seniors, shift workers, and those travelling to other time zones. Melatonin 5 mg from Webber Naturals provides easily absorbed melatonin to help reset the body's "biological clock", promoting increased sleep quality and the duration of sleep. By re-establishing a normal circadian rhythm, melatonin offers support for people experiencing difficulty falling asleep or staying asleep, or who wake up too early. It also supports the essential restorative REM phase of sleep to help reduce daytime fatigue, and may help alleviate abdominal pain associated with irritable bowel syndrome (IBS). Under normal circumstances, the body's pineal gland increases melatonin production when darkness falls, inducing drowsiness and promoting restful sleep. However, shift work, jet lag, delayed sleep phase syndrome (DSPS), and other factors can disrupt melatonin production, leading to sleep difficulties and subsequent daytime drowsiness. Melatonin may be particularly helpful in supporting sleep in later life, as research shows an age-related decline in melatonin production and decreased levels of this important neurohormone in many older adults experiencing insomnia. Taking a melatonin supplement 30–90 minutes before bedtime can help reset the body's natural rhythm, reducing the time it takes to fall asleep and improving the quality of sleep. Good quality sleep is essential for optimal health and well-being, and anyone with a serious sleep disorder should consult their health care practitioner. Melatonin 5 mg from Webber Naturals is derived from non-animal sources and comes in a sublingual tablet to ensure fast, consistent absorption. Check with your health care practitioner to determine your optimal dose of melatonin.

Always keep medications and natural health products out of reach of children.

Webber Naturals® Biotin 5000 Mcg

Item 31253133

Nutritional information

Ingredients:

Each vegetarian capsule contains: Biotin 5000 mcg

Description

Biotin is an essential B vitamin needed for the metabolism of carbohydrates, fats and protein to support optimal energy levels. Biotin is also a factor in the maintenance of good health. Webber Naturals Biotin 5000 mcg is a one-per-day, non-GMO formula that promotes healthy hair, skin, and nails. Biotin is an essential co-factor in the metabolism of carbohydrates, fats, and protein, making it a key part of maintaining optimal energy levels. It is also vital for the synthesis of amino acids, the building blocks of proteins such as keratin which is found in the skin, hair, and nails. Biotin 5000 mcg can help strengthen brittle nails to reduce painful splitting. It also supports strong hair and, due to its role in the synthesis of fatty acids, can alleviate dry skin related to biotin deficiency. As part of the B vitamin group, biotin is best known for supporting energy metabolism through its involvement in a number of enzyme pathways. Biotin acts as an essential cofactor for certain enzymes needed for the synthesis of fatty acids, for the breakdown of branched-chain amino acids for energy, and to synthesize the body's major energy source, glucose, from food. Biotin 5000 mcg from Webber Naturals is a convenient one-a-day vegetarian formula that can help strengthen brittle nails while supporting energy metabolism and the health of hair, nails, and skin.

- A vitamin that promotes healthy hair, nails, and skin

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Vitafusion Vitamin D3 Adult Gummy Vitamins

VITAMIN D3
GUMMY

150
gummies

Item 31329402

Nutritional information

Ingredients:

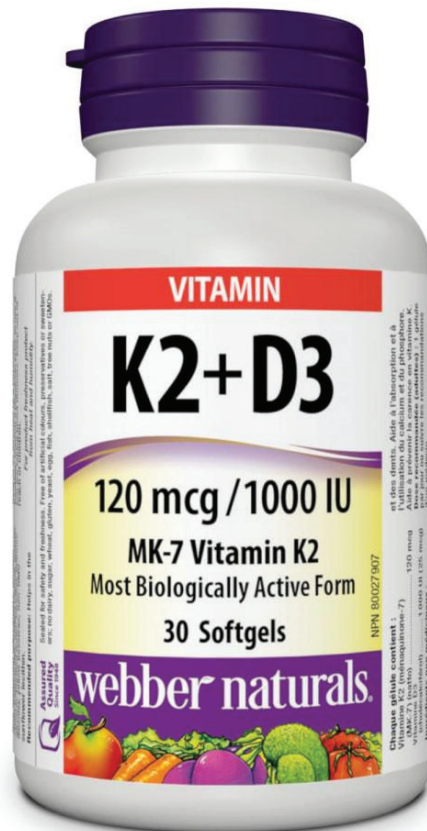

Each Gummy Vitamin Contains: Vitamin D (cholecalciferol) 1000 IU / 25 mcg Non-medical ingredients: Citric acid, colours (annatto extract, carrot juice, concentrated vaccinium corymbosum (blueberry) juice, purple carrot juice), corn syrup, fractionated coconut oil (contains beeswax and/or carnauba wax), gelatin, L-lactic acid, lecithin, medium-chain triglycerides, naturally sourced flavours (blackberry, peach, raspberry), pectin, sucrose, water. Processed in a facility with products that contain egg, fish, shellfish, soy and tree nuts.

Description

Vitamin D is called the sunshine vitamin. Sunlight helps with the production of vitamin D but can be challenging to get, especially during the chilly winter months. With 1000 IU of vitamin D, each serving of Vitafusion Vitamin D3 supports bones and teeth, as well as the immune system.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.

Webber Naturals® Vitamin K2 + D3, 120 mcg/1000 IU

Item 30779741

Nutritional information

Ingredients:

Each Softgel Contains: Vitamin K2 (Menaquinone-7) 120 mcg Vitamin D3 (Cholecalciferol) 25 mcg (1000 IU)

Description

Vitamin K2+D3 from Webber Naturals provides two key vitamins needed for healthy bones and teeth. Vitamin K2 is provided as the highly bioavailable and bioactive menaquinone-7 (MK-7). It plays a critical role in guiding calcium to where it is needed – building and maintaining strong, healthy, bones and teeth – and away from the heart and blood vessels where it can cause damage. Fat-soluble MK-7 is the only form of vitamin K2 to offer 24-hour protection from a single daily dose. Other forms of vitamin K2, such as MK-4, need to be taken at a much higher dosage to provide benefits to health and only last four to six hours in the body before they are eliminated.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.

Vitafusion Vitamin B12 Adult Gummy Vitamins

VITAMIN B12
GUMMY

140
gummies

Item 31329388

Nutritional information

Ingredients:

Each Gummy Vitamin Contains: Vitamin B12 (as cyanocobalamin) 500 mcg
Non-medical
Ingredients: Blend of Oils (Coconut and/or Palm) with Beeswax and/or Carnauba Wax, Citric Acid, Corn Syrup, Gelatin, L-Lactic Acid, Naturally Sourced Raspberry Flavour, Sucrose, Water. Processed in a facility with products that contain egg, fish, shellfish, soy and tree nuts.

Description

Vitafusion B12 Gummy Vitamins are an excellent source of Vitamin B12, designed to support energy metabolism for adults. They provide 500-mcg of B-12 per serving to help the body metabolize carbohydrates, fats and proteins. The delicious, naturally sourced raspberry flavour makes remembering to take your vitamins easy.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Vitamin D3 1000IU

Item 30087774

Nutritional information

Ingredients:

Medicinal ingredients per softgel: Vitamin D (Cholecalciferol) 25 mcg (1000 IU)

Non-medicinal ingredients: Gelatin, Purified Water, Soybean Oil, Vegetable Glycerin.

Description

Vitamin D, also known as the Sunshine Vitamin, is an essential nutrient that the body creates by converting cholesterol in the body via sunshine. Supplementing with Nature's Bounty Vitamin D3 is an easy way to help increase your daily intake of this important nutrient, which helps in the development and maintenance of bones and teeth.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Vitamin C Chewable, Natural Orange, 500 mg

Item 30759630

Nutritional information

Ingredients:

Each chewable tablet contains: Vitamin C (ascorbic acid, sodium ascorbate) 500 mg

Description

Chewable Vitamin C 500 mg from Webber Naturals provides daily support for immune function, wound healing, connective tissue formation, and healthy bones, gums, and teeth. Vitamin C is a water-soluble nutrient that is not stored in the body. It must be obtained daily through the diet and/or supplemental sources to support numerous aspects of human health. Vitamin C is the body's primary antioxidant, and is also able to help recycle depleted vitamin E for enhanced antioxidant protection. Vitamin C protects LDL cholesterol from oxidation and facilitates the absorption of nonheme iron to support red blood cell formation. Vitamin C may also help shorten the duration of cold symptoms. Chewable Vitamin C 500 mg from Webber Naturals is available in delicious natural orange, blueberry, and tropical breeze flavours. It is non-GMO, free of artificial colours and preservatives, and contains no sugar. This great-tasting chewable tablet is suitable for vegetarians and ideal for anyone who wants a convenient, great-tasting way to meet daily vitamin C needs.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.

Centrum Prenatal+DHA Multivitamin Supplement with DHA/EPA Omega 3 Combo Pack, 120 Total Count

Item 30940373

Description

Webber Naturals® Magnesium 250 mg

Item 30777881

Nutritional information

Ingredients:

Each caplet contains: Magnesium (oxide, malate, glycerophosphate) 250 mg

Description

Webber Naturals offers a bioavailable source of magnesium as magnesium malate, glycerophosphate, and oxide to support the development and maintenance of strong bones – as well as the production of adenosine triphosphate (ATP), the body's main energy molecule. Magnesium is the fourth most abundant mineral in the body and is a key nutrient required for the development and maintenance of bones and teeth. Magnesium helps metabolize carbohydrates, proteins, and fats, supports tissue formation, and helps maintain proper muscle function. Magnesium 250 mg from Webber Naturals includes magnesium bound to malic acid and glycerophosphate, providing a key component of the Krebs cycle by which the body produces energy in the form of adenosine triphosphate (ATP). About 50% of the body's magnesium is stored in the bones, where it supports the proper use of calcium to keep bones strong and healthy. The other half is found in the body's tissues, cells, and plasma. Magnesium is indispensable for healthy tissue formation and tissue functioning, and is a dominant factor in balanced muscle contraction tone (i.e., cramping). Magnesium is also essential for the activity of more than 300 enzymes, including those involved in the metabolism of carbohydrates, fats, and proteins. The North American diet is often lacking in magnesium, but restoring and maintaining healthy magnesium levels can help reduce the risk for developing adverse effects associated with magnesium deficiency.

Webber Naturals® Melatonin Gummies, 10 mg

Item 30779736

Nutritional information

Ingredients:

Each gummy contains: Melatonin (non-animal source) 10 mg

Description

Melatonin 10 mg Gummies from Webber Naturals offer a non-habit-forming nighttime formula for improved sleep quality. Good sleep quality is essential for maintaining physical and cognitive health; however, travelling, shift work, delayed sleep phase syndrome, and other factors can disrupt melatonin production, leading to sleep difficulties and eventually to daytime drowsiness.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Item 30759633

Nutritional information

Ingredients:

Each tablet contains: Magnesium (citrate, fumarate, oxide, succinate, malate) 150 mg
Melatonin (non-animal source) 10 mg

Description

Millions of Canadians struggle to get to sleep and stay asleep every night. Melatonin Magnesium Maximum Strength 10/150 mg from Webber Naturals combines two key ingredients for a good night's rest: magnesium to promote relaxation and melatonin to regulate the body's sleep-wake cycle.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.

Melatonin Quick Dissolve, 3 mg

Item 30723596

Nutritional information

Ingredients:

Each Tablet Contains: Melatonin 3 mg
Non-Medicinal Ingredients: Lactose monohydrate, microcrystalline cellulose, peppermint flavour, croscarmellose sodium, vegetable grade magnesium stearate (lubricant).

Description

Melatonin naturally regulates a person's sleep-wake cycle. When sleep patterns are disturbed, falling and staying asleep can be difficult. Supplemental sublingual melatonin may reset circadian rhythms and improve sleep quality, especially related to aging, sleep disorders, and jet lag. Melatonin 3 mg from Webber Naturals is a non-habit-forming nighttime formula for improved sleep quality. Good sleep quality is essential for maintaining physical and cognitive health; however, travelling, shift work, delayed sleep phase syndrome, and other factors can disrupt melatonin production, leading to sleep difficulties and eventually to daytime drowsiness. Melatonin is a hormone secreted by the pineal gland in the brain. It safely and effectively resets the body's "biological clock" – helping you fall asleep faster, stay asleep longer, and wake up feeling refreshed. Melatonin also supports the essential restorative REM phase of sleep to help reduce daytime fatigue. Each sublingual tablet delivers 3 mg of melatonin derived from non-animal sources. The delicious peppermint flavoured quick dissolve tablet is convenient for adults looking to find an alternative to taking the tablet form. Supplemental melatonin is non-addictive and safe for most adults when taken as directed. This is an ideal formula for anyone seeking a natural aid for sleep deprivation, fatigue, jet lag, and age-related declines in melatonin. Fall asleep and stay asleep with Melatonin.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Always keep medications and natural health products out of reach of children.

Lutein with Zeaxanthin, 40 mg

Item 30759621

Nutritional information

Ingredients:

Each softgel contains: Lutein (*Tagetes erecta*) (marigold flower) 40 mg Zeaxanthin (*Tagetes erecta*) (marigold flower) 7 mg

Description

Lutein with Zeaxanthin Maximum Strength from webber naturals contains natural, purified lutein for superior antioxidant protection. Taking a quality lutein supplement daily helps prevent age-related macular degeneration, cataracts, glaucoma, and diabetic retinopathy. It can also improve visual acuity, glare recovery, and contrast sensitivity. Lutein with Zeaxanthin Maximum Strength from Webber Naturals supports healthy eyes and vision in people with conditions associated with sunlight damage such as age-related macular degeneration (AMD), cataracts, and other eye conditions. Lutein and zeaxanthin are major carotenoid pigments that are highly concentrated within the macula and retina of the eyes. They improve macular pigment optical density and provide antioxidant protection for the maintenance of eye health. This is critical because the retina is especially vulnerable to oxidative stress due to its high exposure to light and high oxygen demands. This convenient one-a-day formula contains 40 mg of lutein plus 7 mg of zeaxanthin in each softgel. Lutein is derived naturally from marigold flowers and purified for superior antioxidant protection. It contains no GMOs or gluten, and is free of artificial colours, preservatives, and sweeteners. Taking a quality lutein supplement daily helps to reduce the risk of developing cataracts. Lutein with Zeaxanthin Maximum Strength is an ideal choice for people with a limited daily intake of lutein and those who are concerned about the effects of the sun's UV rays on their eyes.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.

Melatonin Gummies 5 mg

Item 31667679

Nutritional information

Ingredients:

Melatonin (non-animal source) 5 mg Cane sugar, tapioca syrup, purified water, pectin, natural flavours (cherry, pomegranate), citric acid, sodium citrate, sunflower oil, natural colour (black carrot juice).

Description

Melatonin 5 mg Gummies from Webber Naturals offers a non-habit-forming sleep aid that restores the natural sleep-wake cycle for a better, more restorative sleep. When sleep patterns are disrupted, the delicious fruit-flavoured gummy makes it easier to improve sleep quality so you can wake up feeling refreshed

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.

Magnesium Bisglycinate, 200 mg

Item 30759624

Nutritional information

Ingredients:

Each vegetarian capsule contains: Magnesium (bisglycinate, oxide) 200 mg

Description

Magnesium Bisglycinate from Webber Naturals is a more absorbable form of magnesium that is calming and gentle on the digestive system. As it does not require stomach acidity to be absorbed, it does not cause diarrhea or stomach upset. Magnesium helps maintain proper muscle function and supports healthy bones and teeth, tissue formation, and the metabolism of carbohydrates, proteins, and fats.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.

Lutein Extra Strength with 3.5 mg Zeaxanthin, 20 mg

Item 30723700

Nutritional information

Ingredients:

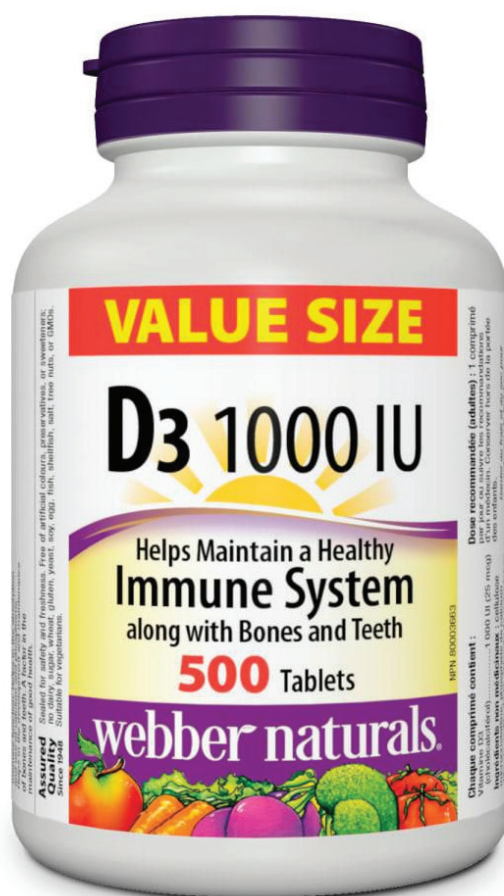

Each softgel contains: Lutein (Tagetes erecta) (marigold flower) 20 mg Zeaxanthin (Tagetes erecta) (marigold flower) 3.5 mg

Description

Lutein with Zeaxanthin Maximum Strength from Webber Naturals supports healthy eyes and vision in people with conditions associated with sunlight damage such as age-related macular degeneration (AMD), cataracts, and other eye conditions. D3 1000 IU

Item 31297638

Nutritional information

Ingredients:

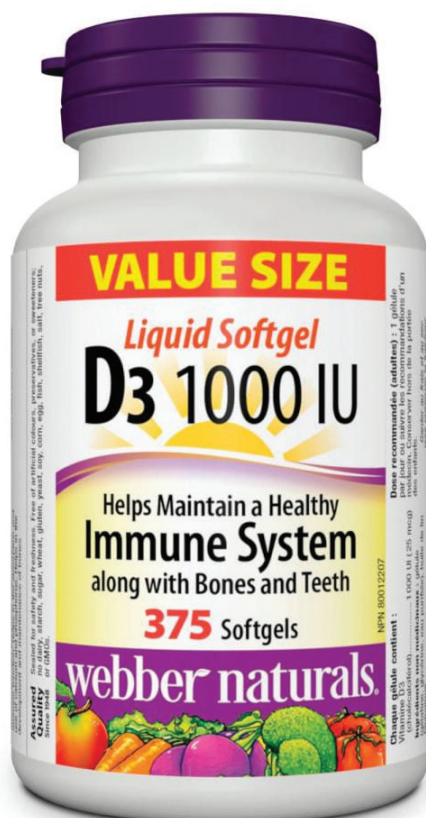

Each Tablet Contains: • Vitamin D3 (Cholecalciferol) 25 mcg (1000 IU)

Description

Vitamin D, also known as the “sunshine vitamin,” is a critical nutrient for immune function and the development and maintenance of healthy bones and teeth. D3 1000 IU from Webber Naturals contains the preferred cholecalciferol form of vitamin D. It helps the body absorb calcium and phosphorus, and is a factor in the maintenance of good health.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.

D3 1000 IU

Item 31297639

Nutritional information

Ingredients:

Melatonin plus L-Theanine + 5-HTP, Tropical Fruit Flavour

Item 30087936

Nutritional information

Ingredients:

Each tablet contains: Suntheanine® L-Theanine 100 mg L-5-Hydroxytryptophan (L-5-HTP) (Griffonia simplicifolia) (seed) 15 mg Melatonin (non-animal source) 1.5 mg

Description

This unique formula combines three natural sleep supporters, melatonin, 5-HTP, and L-theanine, in one delicious chewable tablet. This non-habit forming blend is ideal for anyone who has trouble falling asleep and staying asleep. Enjoy a restful sleep and maintain a healthy sleep cycle so you wake up refreshed. Sleep is essential for good health and quality of life; without it, the body is unable to restore and repair. On average, Canadians sleep one hour less than they did 25 years ago, and millions of Canadians have trouble getting to sleep, staying asleep, or waking up rested. Insomnia is often caused or worsened by lifestyle factors such as stress, lack of exercise, and poor diet, but there is hope: Melatonin Plus from Webber Naturals supports a better night's sleep. Melatonin Plus combines three natural health products that are used as relaxants and sleep aids: 5-HTP (a plant-sourced amino acid), L-theanine (a compound found in green tea), and melatonin (a hormone). These sleep supporters come in delicious, naturally flavoured, chewable tablets, helping to temporarily promote relaxation and reset the body's sleep-wake cycle. This formula is a great choice for people who have trouble falling asleep and staying asleep. It helps increase the total sleep time in those suffering from sleep restriction or altered sleep schedule, such as shift-workers, and helps relieve the daytime fatigue associated with jet lag. Although not habit-forming, those with chronic insomnia should consult with a physician to rule out any underlying medical conditions.

Triple Strength Omega-3, 900 mg

Item 30940489

Nutritional information

Ingredients:

Each clear enteric softgel contains: Fish Oil* (anchovy, sardine and/or mackerel) 1425 mg Omega-3 Fatty Acids 900 mg Providing: Eicosapentaenoic Acid (EPA) 600 mg Docosahexaenoic Acid (DHA) 300 mg* Molecularly distilled, ultra purified.

Description

Triple Strength Omega-3 900 mg EPA/DHA from webber naturals delivers a highly concentrated form of omega-3 fatty acids, guaranteed to be free from environmental contaminants and heavy metals. Our unique clear enteric softgel technology uses natural ingredients for improved nutrient absorption while eliminating any fishy aftertaste.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.

Omega-3 Mini Easy Swallow, 300 mg EPA/DHA

Item 30940487

Nutritional information

Ingredients:

Each clear enteric softgel contains: Fish Oil* (anchovy, sardine and/or mackerel) 500 mg Omega-3 Fatty Acids 300 mg Providing: Eicosapentaenoic Acid (EPA) 180 mg Docosahexaenoic Acid (DHA) 120 mg* Molecularly distilled, ultra purified.

Description

Omega-3 fatty acids are essential in supporting cardiovascular and brain health. They lower triglyceride levels, support healthy brain function and mood, and help fight inflammation. Omega-3 Mini from webber naturals provides fatty acids your body needs in a smaller, easy-to-swallow clear enteric softgel.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.

Wild Alaskan Salmon Oil, 200 mg

Item 30071387

Nutritional information

Ingredients:

Each clear enteric softgel contains: 100% Wild Alaskan Salmon Oil 1200 mg Omega-3 Fatty Acids 200 mg Providing: Eicosapentaenoic Acid (EPA) 90 mg Docosahexaenoic Acid (DHA) 110 mg Contains naturally occurring Astaxanthin and Vitamin D.

Description

Wild Alaskan Salmon Oil from webber naturals contains 100% wild sourced salmon from the pristine waters of Alaska. Utmost care is taken in manufacturing to preserve the naturally occurring astaxanthin and vitamin D. Our unique clear enteric softgel technology uses natural ingredients for improved nutrient absorption and guarantees no fishy aftertaste. Omega-3 essential fatty acids from cold water fish such as salmon have beneficial effects on the cardiovascular system, such as lowering triglyceride levels, and are essential for healthy brain function. Wild Alaskan Salmon Oil from Webber Naturals is sourced from the pristine waters of Alaska and extracted from already harvested salmon using fish parts that would otherwise be wasted, thereby conserving existing salmon stocks. The oil is made using a chemical-free proprietary extraction method very similar to that used for extra virgin “cold-pressed” olive oil, ensuring that the naturally occurring omega fatty acids, astaxanthin, and vitamin D are not destroyed during manufacturing. The red-orange colour of salmon oil comes from naturally occurring astaxanthin carotenoids. Astaxanthin is recognized as a strong antioxidant that fights the damage caused by free radicals, resulting in anti-aging benefits such as improved skin elasticity and appearance. Wild Alaskan Salmon Oil from Webber Naturals uses clear enteric softgel technology, which incorporates natural ingredients into the softgel casing instead of coating them with potentially unhealthy chemicals as is done with enteric-coated softgels. This prevents the softgel from breaking down in the stomach, ensuring optimal delivery and preventing a fishy aftertaste. The IVO (International Verified Omega-3) seal on this product indicates that its fish oil components are certified to have met the world’s highest standards for purity, potency, and sustainability.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.

Wild Alaskan Salmon & Fish Oil, 300 mg EPA/DHA

Item 30071415

Nutritional information

Ingredients:

Each clear enteric softgel contains: 100% Wild Alaskan Salmon & Fish* Oil (anchovy, sardine and/or mackerel) 1000 mg Omega-3 Fatty Acids 300 mg Providing: Eicosapentaenoic Acid (EPA) 180 mg Docosahexaenoic Acid (DHA) 120 mg* Molecularly distilled, ultra-purified.

Description

The omega-3 fatty acids in Wild Alaskan Salmon & Fish Oil from Webber Naturals benefit the brain, nerves, eyes, heart health, the circulatory system, and joint mobility. The oils are 100% wild, molecularly distilled, and ultra-purified to ensure the highest quality product. Clear enteric softgels guarantee no fishy aftertaste. The omega-3 fatty acids EPA and DHA are essential fatty acids (EFAs) your body needs for proper development and function in both children and adults. EFAs influence the health and functioning of all systems in the body including the brain and nerve cells, hormones and cardiovascular health. These fatty acids regulate the entry of important nutrients into the cell and keep toxins out, thereby maintaining cell membrane function. Omega-3 fatty acids are particularly important, influencing cardiovascular and brain health as they help produce hormone-like compounds that promote the dilation of blood vessels and regulate inflammation and blood pressure. Although omega-3 fatty acids can be obtained through alpha-linolenic acid (ALA) in plant sources, which can be converted to DHA and EPA in the body, this conversion is often inefficient. Marine sources such as salmon oil and fish oils, on the other hand, provide a direct supply of these two fatty acids to be used by the body. Wild Alaskan Salmon & Fish Oil from Webber Naturals uses clear enteric softgel technology, which incorporates natural ingredients into the softgel casing instead of coating them with potentially unhealthy chemicals as is done with enteric-coated softgels. This prevents the softgel from breaking down in the stomach, ensuring optimal delivery and preventing a fishy aftertaste.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.

Omega-3 Extra Strength, 700 mg EPA/DHA

Item 30940490

Nutritional information

Ingredients:

Each clear enteric softgel contains: Wild Fish Oil* (anchovy, sardine and/or mackerel) 1200 mg Omega-3 Fatty Acids 700 mg Providing: Eicosapentaenoic Acid (EPA) 420 mg Docosahexaenoic Acid (DHA) 280 mg* Molecularly distilled, ultra purified.

Description

Extra Strength Omega-3 700 mg EPA/DHA from webber naturals is a high potency formula that supports cardiovascular health, improves cognitive function, and helps reduce the pain of rheumatoid arthritis in adults. It also provides an optimal balance of EPA and DHA to reduce serum triglycerides in conjunction with conventional therapy. Extra Strength Omega-3 contains an optimal balance of EPA and DHA to promote cardiovascular and cognitive health as well as reduce painful symptoms of rheumatoid arthritis and other inflammatory conditions. EPA and DHA exert their health benefits through several mechanisms, like the ability to modify cell membrane structure and function, and balance the production of bioactive eicosanoids that regulate key processes such as inflammation and dilation of blood vessels, learning, and neuroprotective activity. EPA and DHA are considered some of the most important nutritional factors in preventing the development of coronary heart disease due to their ability to regulate cardiovascular parameters such as triglycerides and blood pressure. DHA is an essential component of the brain, and plays a vital role in the development and protection of brain tissue and cognitive processes in both infants and adults. Extra Strength Omega-3 from Webber Naturals uses clear enteric softgel technology, which incorporates natural ingredients into the softgel casing instead of coating them with potentially unhealthy chemicals as is done with other enteric-coated softgels. This prevents the softgel from breaking down in the stomach, ensuring optimal delivery and preventing a fishy aftertaste.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.

Omega 3-6-9 High Potency 1200 mg · Fish, Flax & Borage

Nutritional information

Item 30071419

Ingredients:

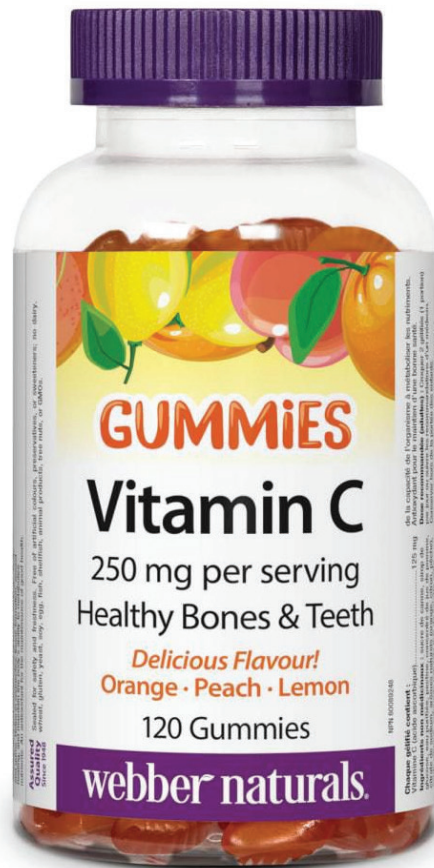

Each clear enteric softgel contains: Fish Oil Concentrate* (anchovy, sardine, and/or mackerel) 400 mg Omega-3 Eicosapentaenoic Acid (EPA) 70 mg Omega-3 Docosahexaenoic Acid (DHA) 45 mg Flaxseed Oil (Linum usitatissimum) (seed) 400 mg Omega-3 Alpha-Linolenic Acid (ALA) 200 mg Omega-9 Oleic Acid (OA) 52 mg Borage Oil (Borago officinalis) (seed) 400 mg Omega-6 Gamma-Linolenic Acid (GLA) 80 mg Omega-9 Oleic Acid (OA) 56 mg *Molecularly distilled, ultra purified.

Description

High Potency Omega 3-6-9 is a balanced essential fatty acid (EFA) complex that supports healthy cardiovascular and cognitive function. EFAs also address concerns such as dry skin and dull hair and improve PMS symptoms. Each dose provides 400 mg fish oil (including EPA/DHA), flaxseed oil and borage oil in a clear enteric softgel.

Lutein with Zeaxanthin, 10 mg

Item 4072698

Nutritional information

Ingredients:

Each Softgel Contains: Lutein (Marigold) (*Tagetes erecta*) (flower) 10 mg Zeaxanthin (Marigold) (*Tagetes erecta*) (flower) 500 mcg

Description

Lutein with Zeaxanthin from Webber Naturals supports healthy eyes and vision in people with conditions associated with sunlight damage such as age-related macular degeneration (AMD), cataracts, and other eye conditions.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Always keep medications and natural health products out of reach of children.

Coenzyme Q10, 100 mg

Item 30723673

Nutritional information

Ingredients:

Each Softgel Contains: Coenzyme Q10 (bacteria or yeast) 100 mg

Description

Coenzyme Q10 from Webber Naturals is a high potency antioxidant and a key nutrient for cellular energy production. Particularly important for heart health, CoQ10 levels are depleted by statin drug use and supplementation is recommended. This supplement provides 100 mg of CoQ10 per softgel. Antioxidants prevent or slow cellular “oxidation.” Similar to the action of rust on metal, oxidation in the body weakens and destroys cells and can apparently accelerate the aging process. Our bodies can produce CoQ10 but our levels of CoQ10 begin to decline between the ages of 20 and 40. CoQ10 supplements from Webber Naturals can help support cardiovascular health and cellular energy production. A person may require different amounts of CoQ10 depending on their state of health, age and lifestyle factors, any where from 30 to 60 mg per day to as much as 100 to 400 mg daily for statin drug users. That is why Webber Naturals offers several different CoQ10 supplement options. If you use blood thinning medications, be sure to discuss CoQ10 use with your physician, as it may increase the blood-thinning action of such drugs.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.

Magnesium Citrate High Absorption, 150 mg

Item 31452742

Nutritional information

Ingredients:

Each Capsule Contains: Magnesium (Citrate) 150 mg

Description

Magnesium Citrate High Absorption from webber naturals helps in the development and maintenance of bones and teeth. Ideal for those who have low stomach acid or difficulty with absorption, this supplement helps the body metabolize carbohydrates, proteins, and fats. Magnesium helps in tissue formation and in proper muscle function. Magnesium is a mineral involved in many essential bodily activities. It regulates metabolic processes, including the production of energy from glucose, and the metabolism of carbohydrates, proteins, and fats. Magnesium benefits the cardiovascular system by toning the vascular system, and it is necessary for the proper functioning of muscles, including the heart. As an important mineral, magnesium helps promote the absorption of other minerals such as calcium, phosphorus, sodium, and potassium. It also plays a key role in the development and maintenance of healthy bones and teeth. Magnesium Citrate High Absorption from Webber Naturals is an important factor in the maintenance of good health. It supplies magnesium in the citrate form, making this supplement ideal for people who have low stomach acid or difficulty with absorption.

Every medication or natural health product may cause serious adverse reactions or interactions with other medications or natural health products. Read the label, warnings and inserts provided by the manufacturer and consult your healthcare professional when purchasing medications or natural health products to be sure the product is right for you. No health, wellness, prescription or pharmaceutical information is intended to substitute for the diagnosis, treatment and advice of a healthcare professional. Always keep medications and natural health products out of reach of children.
